This schedule reflects the new energy at the committee level balanced with interacting with officials and other outside speakers at our traditional business meetings. Under this proposal, Civic Club meetings will alternate between meetings focused on hearing from speakers of interest and meetings focused on committee work. **All members are invited to both types of meetings.** Outside officials are also invited to all meetings but will have a limited amount of time to speak at the meetings for committee work.

We are looking for volunteers to host meetings in 2024. Please let me know(president@idylwood.org) if you are interested.
